

Web and Graphic Designer

General requirements

We seek interns and volunteers who are physically, mentally, and emotionally fit and do not back down from a challenge. Working in the Amazon is not for the faint of heart. The weather is hot and humid, there are often many bugs and mosquitoes. River travel is not the most comfortable form of transportation, though it is the most common. You are expected to work hard, with a high level of autonomy and initiative. When staying in indigenous communities, there is no running water or flushing toilets. While you may not permanently live in a community, you might be there for lengths of time depending on your role. Flexibility and patience are also extremely important. Things happen at their own pace here in the Amazon, and patience is definitely a virtue.

That being said, the rewards of persevering and facing these challenges yield innumerable opportunities for growth and learning.
